| in LinkedIn: Muhammed Elsayed| ⊙ Egypt - Alex

Professional Summary

Front-End Developer skilled in writing clean, reusable code with strong problem-solving abilities and teamwork experience. Able to work effectively under pressure, applying brainstorming and problem-solving skills to deliver optimal solutions in team environments . Holder of a Bachelor's degree in M.I.S .

Education

Bachelor's Degree in Management Information Systems – **Alexandria Academy for Management and Accounting** - With Distinction (Excellent with Honors) – Ranked 3rd in Class .
October 2021 – June 2025 .

Projects

- **Portfolio** :Built and deployed a responsive portfolio website using React.js and TailwindCSS and modern animation using GSAP Library to showcase projects Portfolio Website .

- **Movies Details** : Built a responsive movie browsing site with **React** . Integrated external API for real-time movie data and implemented dynamic search/filtering for enhanced user experience. Movies Website .

- **To-Doing App (Task Management Website)** – Built a responsive task management web app using React and LocalStorage. Implemented authentication with protected routes, daily/weekly task views, custom projects with icons, and full CRUD functionality. Added search, settings, and interactive feedback with sound and animations for an enhanced user experience. to-doing-app

-**Weather App (Web Weather Application)** – Developed a responsive weather dashboard using N**ext.js**, **ShadCN** and **TailwindCSS**. Integrated a weather API to fetch real-time data (temperature, humidity, wind, etc.), with features including search by city, dynamic background/themes based on conditions, loading/error states, and intuitive UI for seamless user experience. Weather-App

Training & Initiatives

- Working with the college on developing applications that help students increase efficiency and effectiveness, and improve the university experience College website .

- Guided students through a university initiative to understand programming, how it works, and how to develop critical thinking and problem-solving skills, as well as building a foundation in object-oriented programming, algorithms, and data structures.

- Member of Student Union, organized student activities and graduation events at the faculty.

- Certification in Responsive Web Design from FreeCodeCamp.org

Technical Skills

- **Programming & Tools:**

    - Programming Languages : HTML, CSS, JavaScript, Sass, React.js, Next.js , ShadCN, TailwindCSS, GSAP, Git, GitHub, Bash , Java , Python , Prompt-engineer , wordpress , Bootstrap.
    - Operating Systems: Windows 10/11, Ubuntu, Kubuntu

- **Computer Science Foundations:**

    - Object-Oriented Programming (OOP)
    - Algorithms
    - Data Structures
    - Problem-Solving & Critical Thinking [CodeWars.com]

Soft Skills

- Ability to work under pressure .
- Continues learning and follow the new technologies .
- Team Collaboration .
- Communication Skills .
- Time Management .
- Continuous Learning & Adaptability .

Languages

- Arabic : Native

- English : Level B2
